The following alternatives are considered in the DEIS: (A) Proposed Project; (B) Reduced Intensity Alternative; (C) Non-Gaming Alternative; and (D) No Action Alternative. Environmental issues addressed in the DEIS include land resources; water resources; air quality and climate change; noise; biological resources; cultural and paleontological resources; transportation and circulation; land use; hazardous materials and hazards; public services and utilities; socioeconomic; environmental justice; visual resources; and cumulative, indirect, and growth-inducing effects.

California State Motor Vehicle Pollution Control Standards; Advanced Clean Fleets Regulation; Request for Waiver of Preemption and Authorization; Opportunity for Public Hearing and Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of opportunity for public hearing and comment.

SUMMARY: The California Air Resources Board (CARB) has notified the Environmental Protection Agency (EPA) that it has adopted Advanced Clean Fleets (ACF) regulations, applicable to affected state and local government fleets, drayage truck fleets, federal agency fleets, and large commercial

fleets that own, lease, or operate on-road medium-duty and heavy-duty vehicles, and light-duty package delivery vehicles, to incorporate zero-emitting vehicles beginning in 2024. The ACF regulations also require that all new California-certified medium- and heavy-duty vehicle sales be zero-emitting vehicles starting in 2036. Elements of the ACF regulation apply to off-road engines and equipment, specifically off-road yard tractors. By letter dated November 15, 2023, CARB submitted a request that EPA grant a waiver of preemption under section 209(b) of the Clean Air Act (CAA) for the ACF on-road regulations and an authorization under section 209(e) of the CAA for the ACF off-road regulations. This notice announces that EPA has scheduled a public hearing concerning California's request and that EPA is accepting written comment on the request.
